

Guidelines for Ordering Semen

We want your breeding season to run smoothly. Please follow the steps below to order semen from your chosen stallion.

1. **Contact** the stallion owner to confirm that semen is available from your chosen stallion. Please also **specify** whether you require **chilled** or **frozen** semen.
2. **Review** the breeding contract for your selected stallion and **ensure** you understand all terms. If anything is unclear, **contact** the stallion owner. You can **request** a copy of the contract directly from them.
3. **Complete** the semen purchase contract with all required details and **return** it to the stallion owner **along with payment**. Once payment has been received, the stallion owner will **submit** a signed **Semen Release Form** to us.
*Please note: We **cannot release semen** without this authorization. To avoid delays, please **finalize this process at least 3 days prior** to your planned breeding date.*
4. **Download and complete** the appropriate order form if you are using a stallion standing at Maraboon Rural Veterinary Services. These forms can be **completed online**
Visit: www.maraboonruralvetservices.com.au and choose:
 - o **Chilled Semen Order Form**
5. Contact Maraboon Rural Veterinary Services to confirm your order for semen by calling 07 4982 2552 or 0492 844 154.
6. **Settle** any remaining fees (e.g., for collection, packaging, or handling) with Maraboon Rural Veterinary Services. These must be **paid in full before semen will be released or used**.
7. **Provide at least 24 hours' notice** before semen dispatch. Orders **will not be processed** on weekends or public holidays. **Confirm courier availability** in advance, as some services may not operate during these times.
8. **Take responsibility** for semen once it leaves MRVS. From the moment of dispatch, **the purchaser assumes full responsibility**. We strongly recommend you **arrange transit insurance**.
9. **Place your order early** to avoid delays. Limited shipping containers are available for hire, and semen from certain stallions may be **in high demand or limited supply**.
10. **Return** the chilled semen shipper promptly via **Australia Post** to:
